Welcome to Hendrix Genetics Swine

In a highly competitive market, the pork value chain faces growing challenges and increasing pressure on their operations. Sustainable performance is essential, and continuous improvement is not optional – it's a necessity.

Hendrix Genetics Swine builds upon a long history and a legacy of excellence in the swine industry. With the merger of two top-tier companies – Hypor and Danish Genetics – we are now positioned as a global leader in swine breeding for today and the future.

We keep you ahead of the game by leveraging cutting-edge R&D, combining Hendrix Genetics' multi-species expertise with the strengths of Hypor and Danish Genetics. This synergy allows us to offer best in class genetics and support, tailored to customer needs, and to deliver solutions that drive optimal performance and profitability.

By providing global reach and local proximity, we offer not just products but ensure long-term reliable partnerships. At Hendrix Genetics Swine, we drive progress and deliver value for the pork value chain. Together, we are building a better future for swine breeding.

DRIVE PROGRESS - DELIVER VALUE

Our mission

Providing a complete genetics portfolio with cutting-edge R&D, long-term partnerships and customer-focused solutions with global reach to drive progress and deliver value for the pork value chain.

Our vision

Empowering the pork value chain to achieve sustainable performance through continuous improvement.

SIRE

Danish Duroc

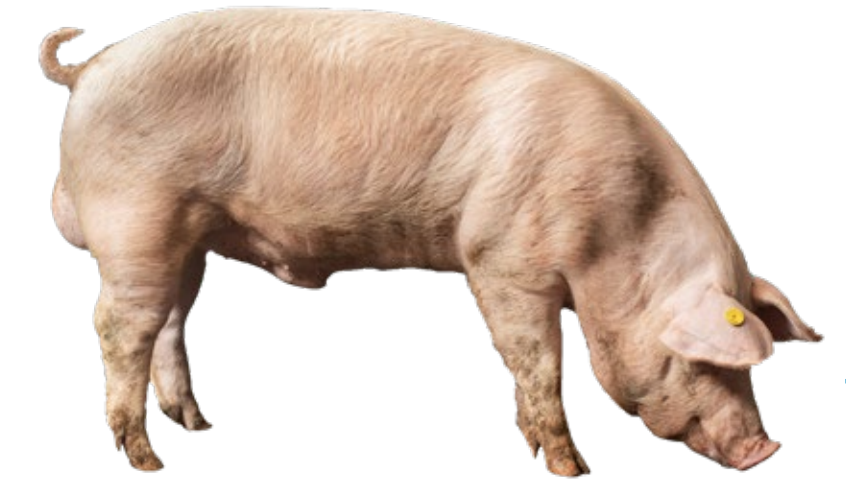

- Top performer in growth
- Low feed consumption
- High meat percentage

DAM

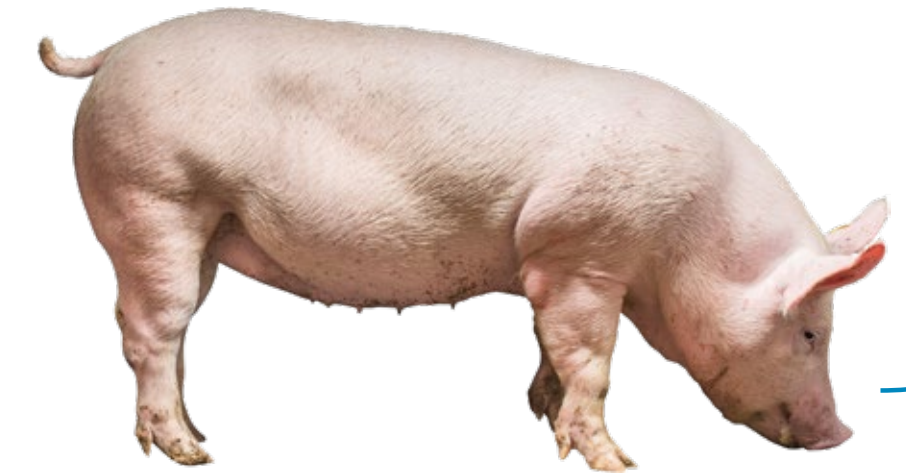

Danish Landrace

- High fertility performance
- Robust and strong
- Excellent mothering abilities

Danish Yorkshire

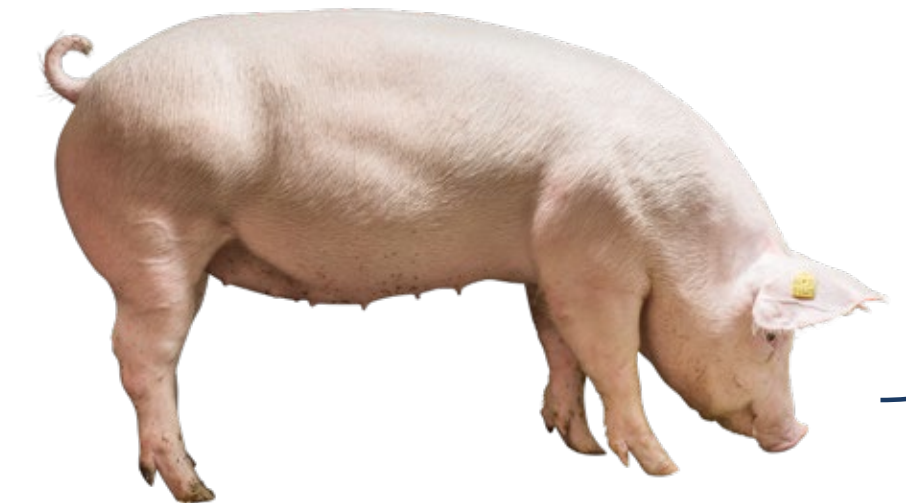

- Excellent parenting skills
- High growth rate
- Low feed consumption

HYBRID / F1

Danish Hybrid

- Most prolific sow
- High productivity
- High growth & feed efficiency

INTRODUCING THE NEXUS 100.

THE NEXT STANDARD IN SOW BREEDING.

NEXus

Grow
ahead with
confidence.

Our combined promise

NEXUS represents a new direction in swine genetics, created for producers who want to move forward with greater confidence.

Built on proven expertise from Hypor and Danish Genetics, it delivers a best-in-class solution for modern pig production. With a focus on predictability, stability, and performance, NEXUS helps reduce uncertainty and unlock consistent results.

More than a product line, it's a brand built on health, efficiency, and innovation, supporting long-term success.

With NEXUS, progress is sustainable, reliable, and profitable.
